chloroplast organization
photosynthesis
generation of precursor metabolites and ...
oxidation-reduction process
small molecule metabolic process
translation
peptide biosynthetic process
amide biosynthetic process
ribosome biogenesis
ribonucleoprotein complex biogenesis
gene expression
response to chitin
microtubule-based process
microtubule cytoskeleton organization
microtubule-based movement
cytoplasmic microtubule organization
photosynthesis, light harvesting
photosynthesis, light harvesting in phot...
response to biotic stimulus
response to other organism
protein phosphorylation
cell communication
phosphorylation
pigment metabolic process
flavonoid metabolic process
response to far red light
carbohydrate derivative metabolic proces...
cutin biosynthetic process
N-glycan processing
glycoprotein metabolic process
carbohydrate derivative biosynthetic pro...
glycoprotein biosynthetic process
